

HIRING FOR

NLP ENGINEER TRAINEE

Responsibilities:

- **Training Program Participation:** Engage in an immersive NLP training program designed to build foundational skills in NLP techniques, algorithms, and tools.
- **Framework Familiarization:** Learn to navigate NLP frameworks such as NLTK, spaCy, Transformers, and Gensim under the guidance of experienced mentors.
- **Data Preparation:** Assist in the acquisition, preprocessing, and annotation of large-scale text datasets to support machine learning model training.
- **Model Development:** Collaborate with senior developers on designing, implementing, and evaluating machine learning models for various NLP tasks, including sentiment analysis, text classification, and named entity recognition.
- **Performance Evaluation:** Conduct experiments to assess model performance and explore techniques for optimizing accuracy, efficiency, and scalability.
- **Documentation and Communication:** Document research findings, methodologies, and implementation details. Present insights to team members and stakeholders as needed.

Requirements:

- Bachelor's or Master's degree in Computer Science, Engineering, Mathematics, or a related field.
- Proficiency in programming languages such as Python, Java, or C++.
- Strong analytical and problem-solving skills.
- Excellent communication and teamwork abilities.
- Passion for learning and exploring new technologies.
- Previous experience or coursework in natural language processing is advantageous but not mandatory.

Other Details:

- Position: NLP Engineer Trainee
- Opportunity: Traineeship + PPO
- Location: Noida
- Stipend : 20-25,000 per month
- CTC: 8-10 LPA
