Update about the Company

Covalience India Pvt. Ltd. (Formerly known as GP Sourcing Pvt. Ltd.) is a subsidiary of Covalience, a US-based software development and consulting MNC, headquartered in Chicago, Illinois, USA.

Covalience helps technology leaders engage effectively with quality, global talent so they can focus on driving new initiatives instead of wrestling with the challenges and frustrations of managing a development team. Our unique approach and high-performing, cross-cultural teams remove the obstacles of missed deadlines, cost overruns, communication failures, poor quality software, and angry stakeholders often associated with distributed teams. We provide seamless development experiences that free them to grow their businesses and lead innovation. Our goal is to provide our clients with amazing software development experiences.

We provide services in the areas of software engineering, UI/UX design, testing, project management, system integration, and consulting and training. Covalience is committed to a triple-bottom line management approach that fully integrates economic, social and personal goals and driven by our Core Values of Honesty, Servanthood, Stewardship, and Community. Our unique company culture puts a priority on people first – our clients, our employees and their families, and the communities we work in. Together, this empowers a world class delivery team to be focused on developing strong partnerships and high-quality service.
